

South Texas Gateway

FACT SHEET

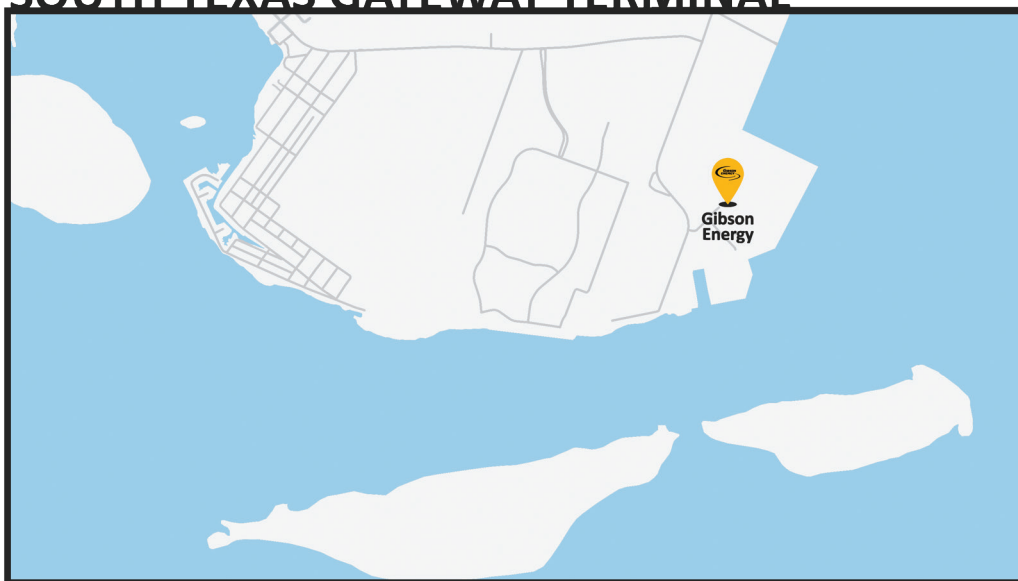

About Us

Gibson Energy (Gibson) is a North American-based liquids infrastructure company headquartered in Calgary, Alberta. With 25.2 million barrels of storage and over 500 km of crude pipelines across North America, we touch 1 in 4 WCSB barrels through GEI terminals. Utilizing this focused asset base, along with our dedicated and talented employees, we help create value for our customers while generating stable, long-term cash flow. Ultimately, our strategically located facilities, combined with our best-in-class market connectivity and a long-term growth outlook, help us connect our customers to markets, our employees to exciting and rewarding careers and investors to long-term value.

Facility Location

SOUTH TEXAS GATEWAY TERMINAL

LEGEND

Our South Texas Gateway Terminal is a world-class crude export terminal with irreplicable strategic location within the Port of Corpus Christi.

World-Class Asset

A state-of-the-art facility designed to efficiently handle Permian crude exports at the lowest cost to shippers.

Strategically Located

Located within the Port of Corpus Christi, a leading export hub and premier location for exports in the U.S. Gulf Coast.

Integral Connectivity

Our advantageous outer-harbor location avoids congestion for significantly shorter transit times to and from dock, allowing product to reach markets more efficiently.

- **Connected to four major pipelines**, our South Texas Gateway Terminal is set up for optimal egress
- **800,000 barrels** of throughput per day at two deepwater docks
- **8.6 million barrels** of storage capacity at our South Texas Gateway Terminal

Our Commitment to Our Stakeholders and Partners

We are committed to working closely with the communities where we live and work to ensure we are a responsible corporate citizen. With over 70 years' experience, we aim to earn the trust of our stakeholders and communities through open and honest communication. From our day-to-day

operations to the planning and implementation of new projects, our business relies on meaningful engagement with the communities we operate, which include landowners, Indigenous Peoples, regulators, all levels of government, community investment partners and other stakeholders.

STAY SAFE AROUND PIPELINES

Call or Click Before You Dig

If you are planning ground disturbance work near a pipeline Right-of-Way, you have an important role to play in ensuring safety. Prior to initiating any type of ground disturbance work, you are required to Call or Click Before You Dig.
